Serial No. 10/030,565

PATENT  
Docket No. 58009-014700REMARKS

Examination of the present application is to be based on claims 2 to 6, 8, and 10 to 21, where claims 1, 7, and 9 have been cancelled, and new claims 11-21 have been added. The present set of claims contains a total of eighteen claims, seven of which are independent. A petition for 4 additional independent claims is enclosed with the present response.

The office action of March 17, 2004 has been carefully examined.

I. Amended claims - New claims

Claims 2-6, 8 and 10 have been amended to be put in an independent form. New claims 11 to 21 have been added. The new claims are deemed to be supported by original claims 1, 2, 3, 7 and 9 of the present application, and related portions of the specification. No new matter has been added.

II. 35 USC 103(a)

In Sections 1 and 2 of the Action, the Examiner rejects claims 1, 7 and 9 under 35 USC 103(a) as being unpatentable over EP 0577121 to Dalla Valle in view of FR 94 11344 to Serge.

Claims 1, 7 and 9 have been cancelled, thus rendering the rejections of the Examiner moot.

III. Claim Objections

In Section 3 of the Action, the Examiner objects to claims 2-6, 8 and 10 as being dependent upon a rejected base claim, while stating that claims 2-6, 8 and 10 would be allowable if rewritten in independent form including all of the limitations of the base claims and any intervening claims.

The Applicant has amended claims 2-6, 8 and 10 to put them in a proper, independent form. Therefore, the Applicant submits that the Examiner's objection has been overcome.
